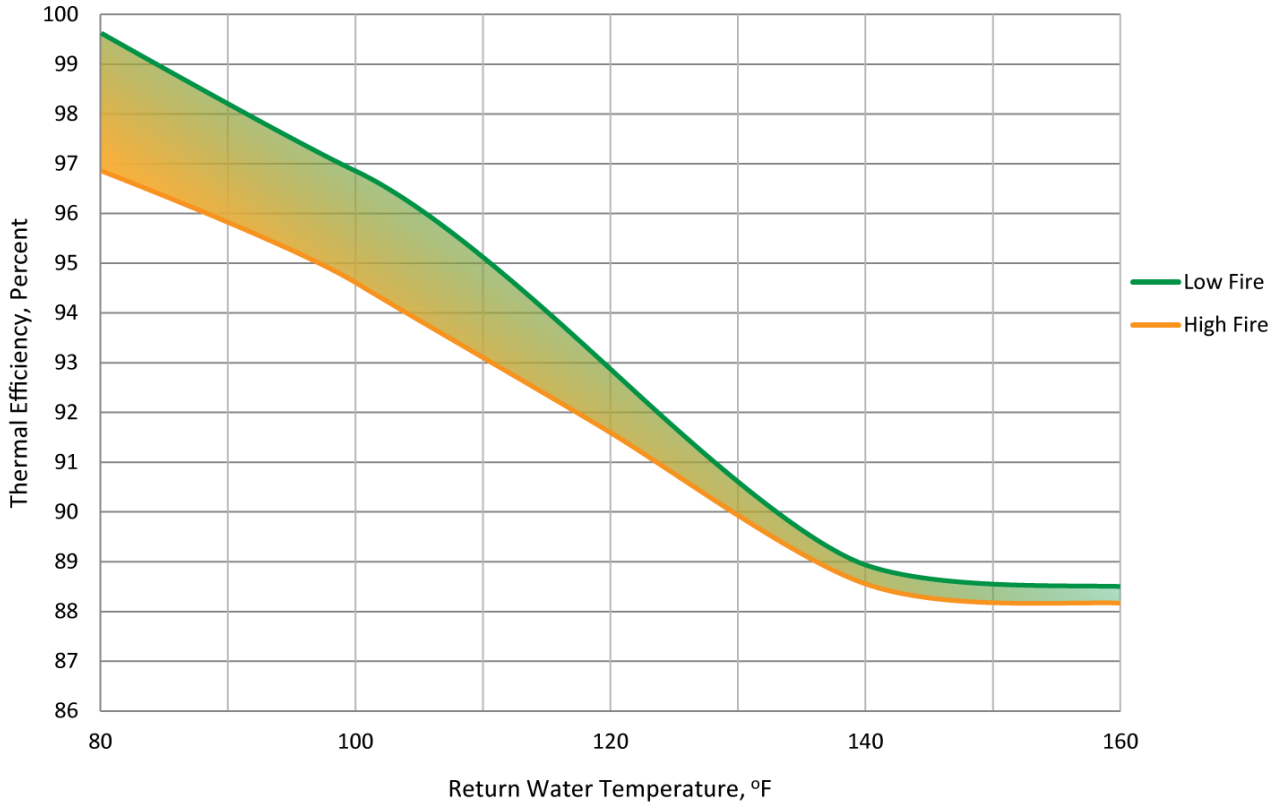
PERFORMANCE DATA

SUBJECT:	ENDURA XE (EXE) SERIES:	DATE:
Thermal Efficiency Curve	EXE-4000, EXE-5000, EXE-6000	December 5, 2024



Notes:

1. Laboratory data collected by Fulton Research & Development.
2. Field performance may vary based on installation and operation conditions, maintenance history, and configured combustion parameters.
3. Fuel is standard natural gas.

Fulton practices continuous product improvement and reserves the right to change specifications and/or dimensions without notice. Always refer to the current documentation available for download on Fulton.com.
